

475W Modular Solar Unit

- Plugs into 13A socket
- No assembly or tools required
- Fully compliant with new UK regulations

Adjustable by season
to maximise power

All plugs and cables
provided

Quality Photovoltaic cells,
manufactured in Spain

Winter

Spring/Autumn

Summer

IP67 waterproof plugs &
sockets integrated into unit

Specifications

Electrical	
Inverter Type Test System Reference	HOYMZ/03477/V1/A1
Output Voltage	220 - 240V
Nominal Frequency	50Hz
Output Current	2.0A Max
Max Output Power from PV cell	475Wp
Max output Power from inverter	400VA
Ingress Protection	IP67
Physical/Dimensions	
Length	1760mm
Width	1250mm
Depth	160mm
Weight per unit	45kg
Operating temperature	-20°C to +40°C
Annual Energy Output (unshaded, South facing)	
UK Midlands	500kWh
Additional Information	
Warranty	10 Years
